3. Tag ID if multiple part number options are available for the VIN

CORE RETURNS

Once your customer has finished installing their new Power Torque Transmission, all they have to do is return the old transmission to your O'Reilly store. The store then returns the core to its Distribution Center.

NOTE: Defective and returned units must be sent from your O'Reilly store straight to the remanufacturer. To do so, call or text 855-870-9694.
